**Mrs. Roosevelt to Speak
In Tribute to U.S. Women**
Mrs. Roosevelt will address a program in tribute to American women in wartime at 8:15 p.m., March 30, in the National Archives auditorium under the sponsorship of the United Federal Workers of America.
Others on the program include Col. Oveta Culp Hobby, director of the Women's Army Corps, and Mrs. Mary McLeod Bethune of the National Council of Negro Women.

District Heads Oppose Naming Health Aide, Purchase of Tract

The Commissioners were on record today as opposing legislation to name an assistant health officer at \$7,200 a year to handle the municipal tuberculosis control program and to the purchase of the Temple Heights tract at Connecticut and Florida avenues N.W.
After a meeting yesterday, the city heads sent letters to Congress making their position known on pending bills.
The Commissioners objected to a new assistant health officer post because they said it would result in division of responsibility and authority. It was pointed out that Dr. George C. Ruhland, health officer, now serves as a liaison officer between the department and institutions and that another such officer would not be in the public interest.

Would Allocate Beds.
The bill, offered by Representative McMillan, Democrat, of South Carolina, chairman of the health subcommittee of the House District Committee, proposed that the new assistant superintendent would allocate with respect to race and sex all tuberculosis beds maintained by the District at Gallinger Hospital, Upshur Street Annex and Glenn Dale Sanatorium.
The existing Tuberculosis Bureau of the department, headed by Dr. A. Barkie Coulter, would be abolished and it has been assumed that the District Building that Dr. Coulter would be a candidate for the new

post if it were created. There was also a report that Dr. Ruhland had opposed the change.
See Big Tax Loss.
There has been a long-standing disagreement in the department over methods of directing the District's tuberculosis control program. The Commissioners expressed the fear that creation of the new office would establish a precedent for other bureaus of the department, such as those handling venereal diseases and maternity cases.

This year Senator Capper, Republican, of Kansas, introduced a bill to purchase the Temple Heights tract, with an appropriation of not more than \$900,000, and for use as a memorial to Civil War soldiers. The 9½-acre tract was purchased from the Grand Lodge of Masons of the District by a New York syndicate for erection of eight buildings to house apartment and hotel-apartment suites.
The Commissioners held that it was not clear whether the bill would be a Federal or District charge. Even if the amount were not charged to the District, the city heads said that some \$210,000 in realty taxes would be lost if a \$12,000,000 to \$14,000,000 development is carried through.
